

Clover Health Prior Authorization List 2022

Effective Date: January 1, 2022

Prior Authorization (also referred to as precertification, pre-admission or pre-authorization) is a process where a physician or healthcare provider is required to obtain advanced approval from Clover Utilization Management prior to providing certain services, medications, treatments or items. Emergency services never require an authorization.

Clover uses a vendor for some Prior Authorization reviews. Clover's simple Prior Authorization online tool, with the links below, will direct you to the appropriate place to submit an auth request.
