Clover Health Formulary Lookup

To do a formulary lookup in Clover Health's Network, complete the steps below.

- Visit Clover Health's website → For Brokers → Provider & Formulary Lookup

1. This link will take you to the page:

<https://www.cloverhealth.com/en/brokers/provider-formulary-lookup>

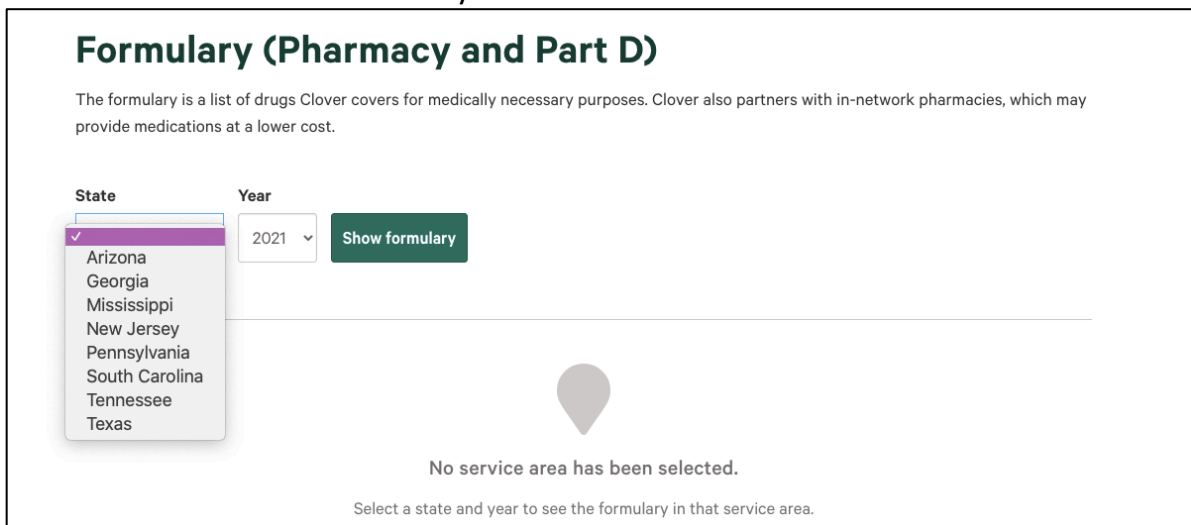

Click **Search Formulary**

You will then see the page below

- You will need to pick your State and the Year of the plan that you want to search

1. Click Show Formulary

When you click Show formulary, a page similar to below will load (NJ example):

Formulary information for 2021 New Jersey plans

Find out if your drugs are covered

Clover's comprehensive formulary lists all brand name and generic drugs available for your health needs. Our formulary represents the prescription therapies believed to be necessary for a quality treatment program, and was designed by Clover in consultation with a team of healthcare providers.

Clover covers the drugs listed in our formulary as long as the drug is medically necessary and all plan rules are followed.

Find a pharmacy

We partner with in-network pharmacies to provide prescription drugs to Plan members. In most cases, your prescriptions are covered only if they are filled at a network pharmacy or through our mail order pharmacy service. We will fill prescriptions at non-network pharmacies under certain circumstances described in the Evidence of Coverage.

Learn about 2021 formulary specifics

We require that members meet specific prior authorization criteria for Clover to cover certain drugs. Additionally, Clover will only cover some medications after the member has tried less expensive options. Finally, patients with certain chronic conditions who take eight or more prescription medications are eligible for the Clover Health Medication Therapy Management (MTM) program, which works with members' doctors and pharmacists to help provide the greatest benefit from their medications.
